MOLDURAS

DETALLE DE LAS CORNISAS

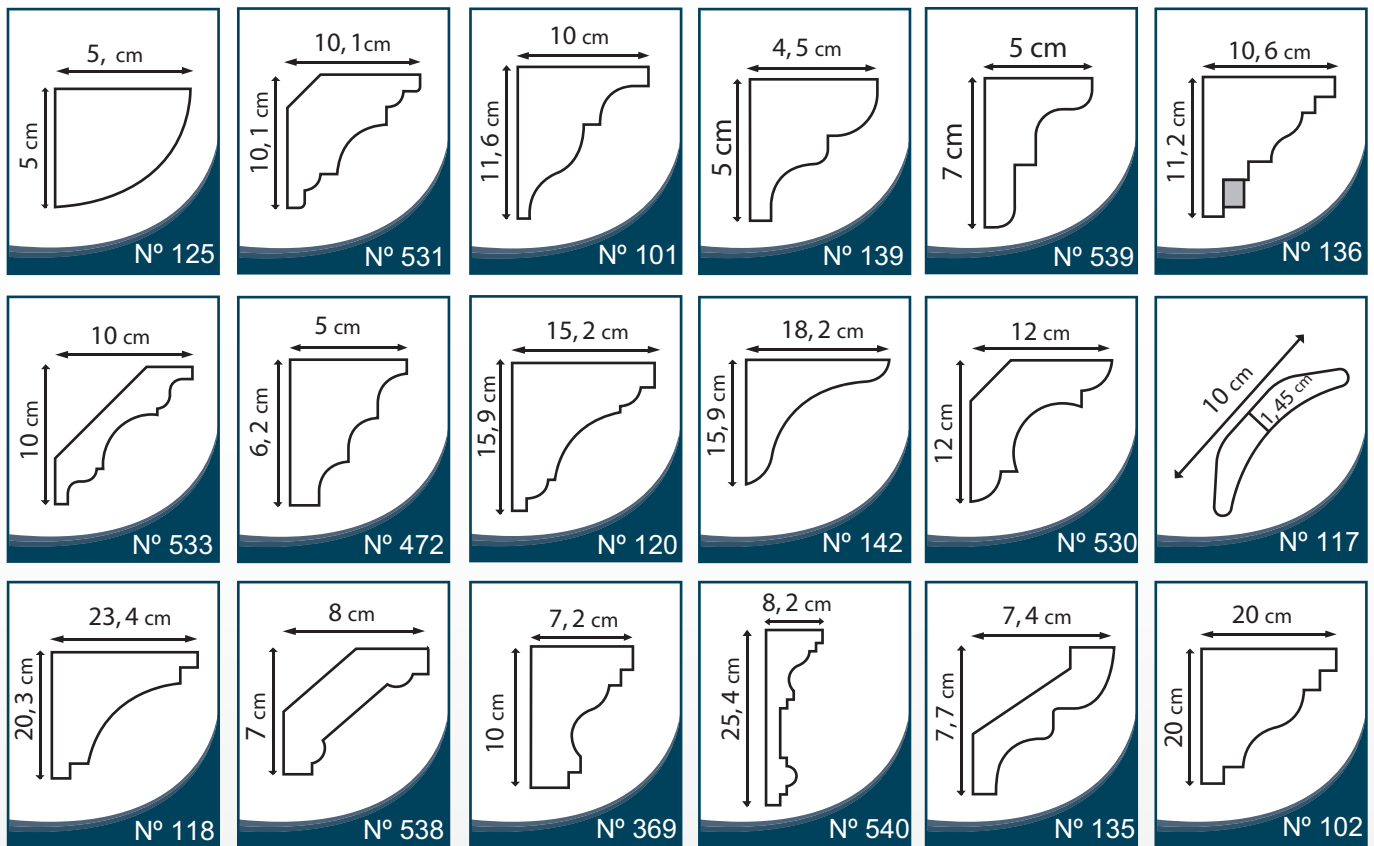

Las molduras pueden ser usadas en todos los aspectos de la decoración interior: ventanas, cuadros y coronamiento de techo-pared. Las molduras para exteriores por ser livianas presentan pocos riesgos en caso de accidente.

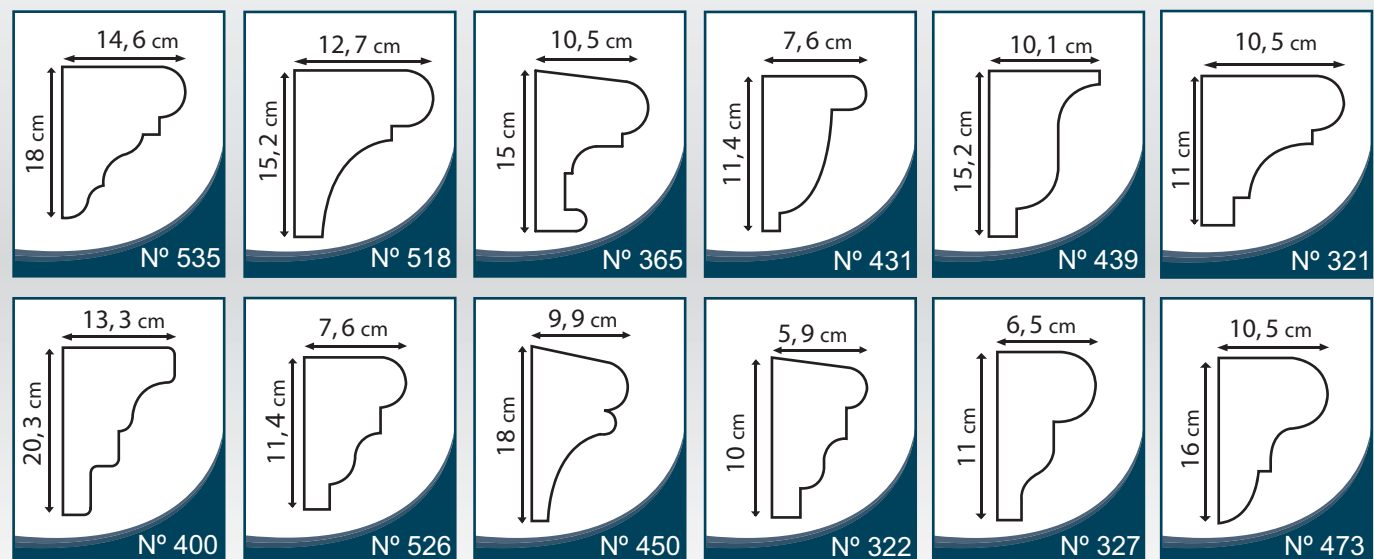

Este tipo de molduras las vemos en muchas fachadas de residencias y centros comerciales con el mismo acabado de las construidas de yeso y cemento.

COLUMNAS

La Columna se adapta al Perling acoplado la abertura segun la medida de este y uniendo ambas mitades de manera el perling queda cubierto en el centro por la columna.

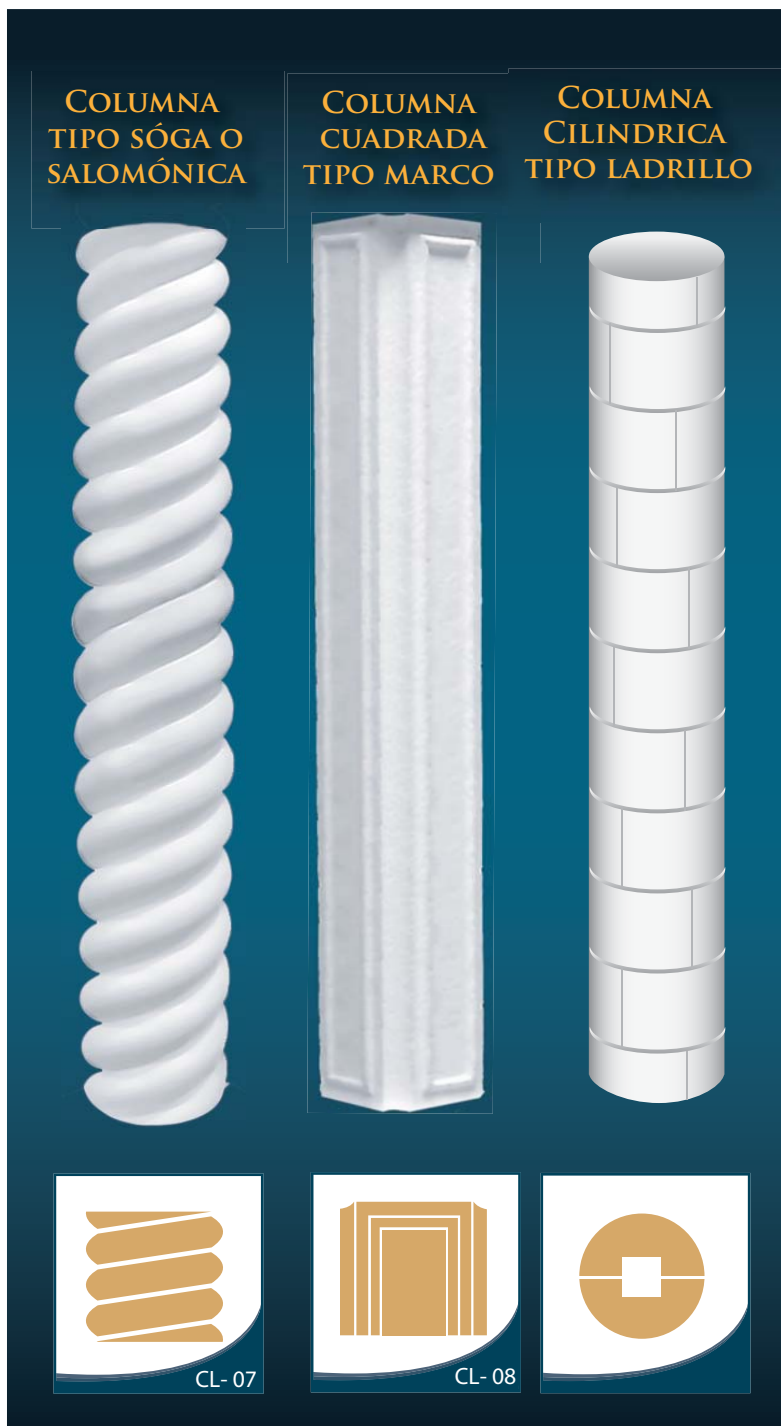

De igual manera la columna se reviste para dar el acabado final dando la apariencia de una verdadera columna de concreto

COLUMNAS

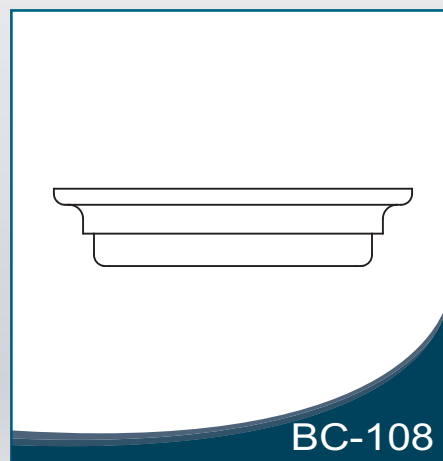

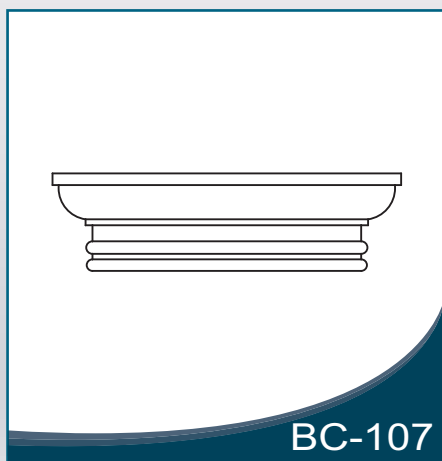

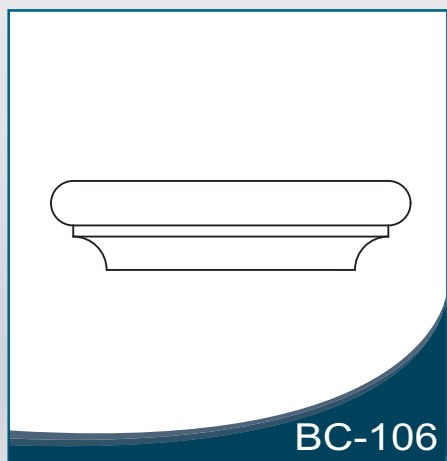

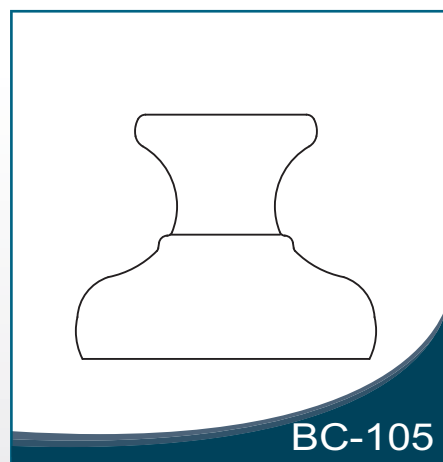

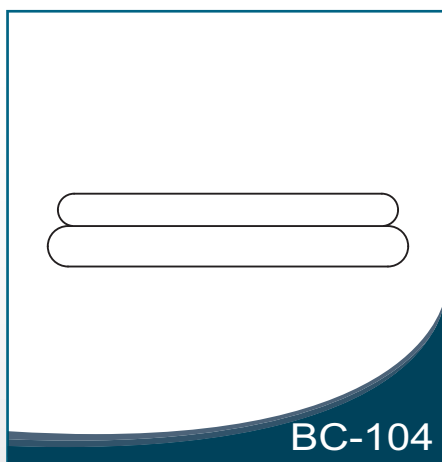

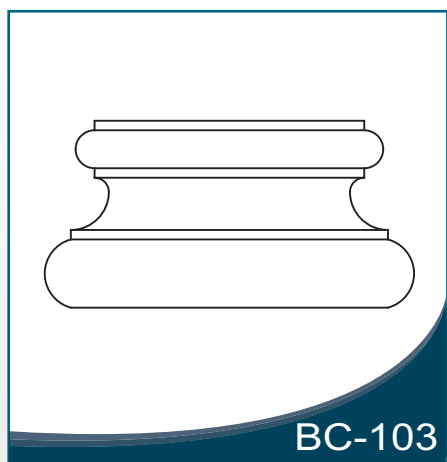

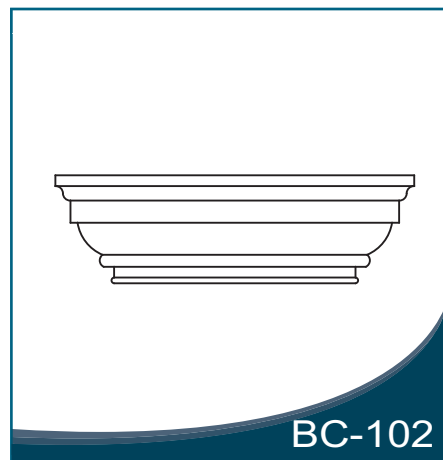

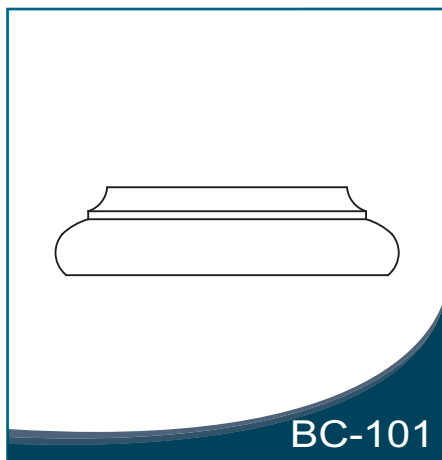

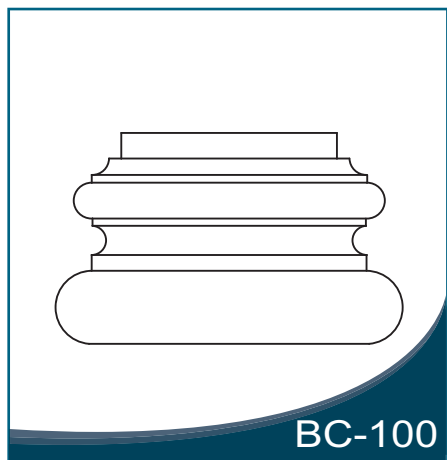

Con la intencion de abarcar mas tendencias, en Artestereofon tratamos de renovar constantemente nuestros diseños para asi cubrir todas las expectativas de nuestros clientes

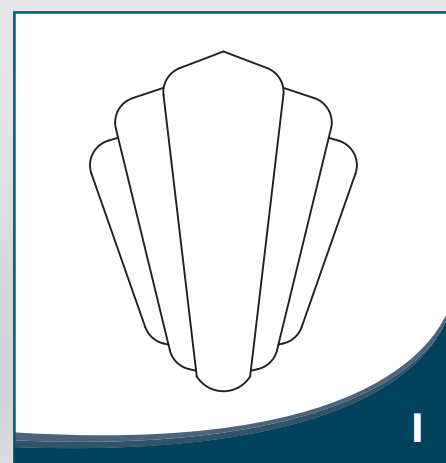

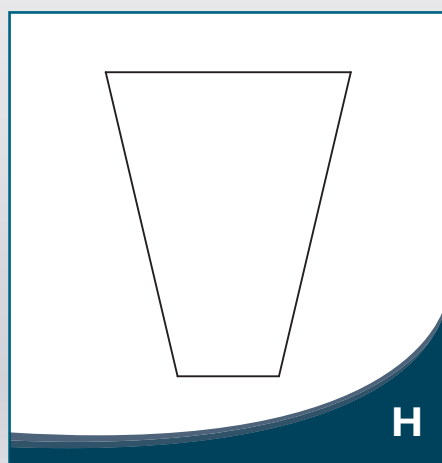

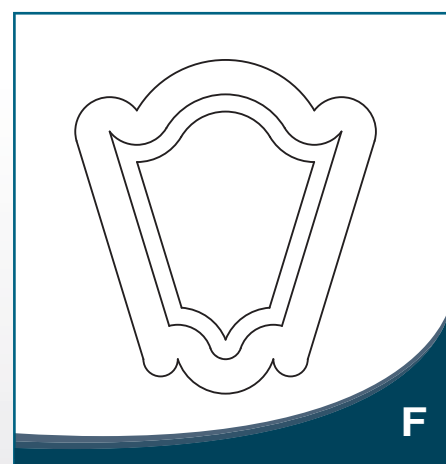

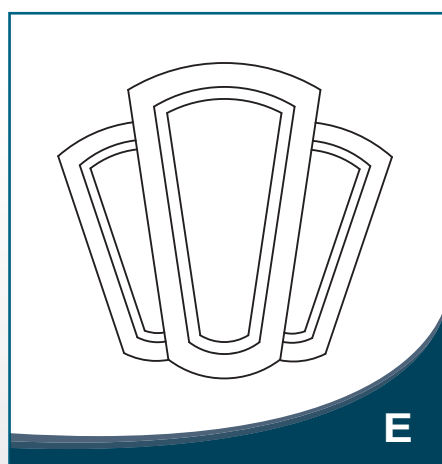

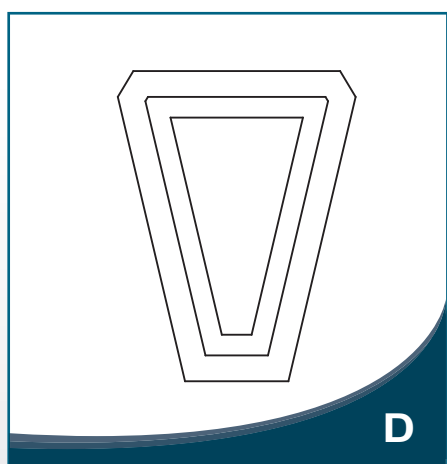

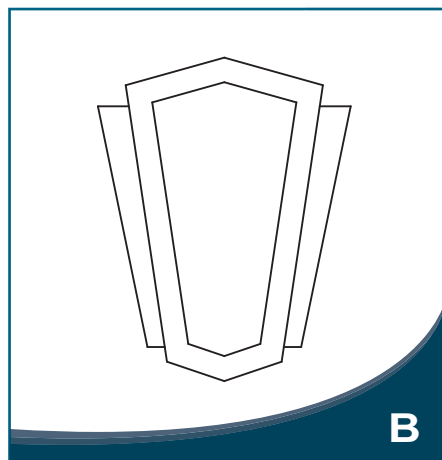

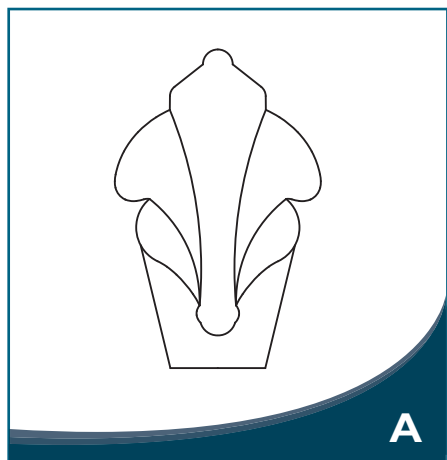

De este modo, se pueden combinar los fustes, bases y pedestales para de esa forma crear el diseño que mas le satisfaga a su gusto.
